2 STEPS TO BEGIN SYNCING YOUR DATA WITH RETAIL INSIGHTS (ABCSETUP)

1. Have your accurate item data loaded into your home data pool and ensure it is ready for publication
 - a. Contact your data pool for any education you might require to complete this step.
2. Review attribute requirements in Section 4 of this document to ensure you can meet our requirements
3. Confirm with your internal Amerisource Bergen sales representative that a GLN subscription has been set up in the ABCSetUp portal for the GLN you will publish from.
 - a. Instructions for creating a GLN subscription in the ABCSetUp portal can be reviewed in the ABCSetUp GDSN User Manual at <https://www.1worldsync.com/community/customers/abc/>
4. Publish items
 - i. Retail Insights will accept publication of your full item catalogue or you may choose to publish only items needed for current new item set-up.
 - ii. Supplier should publish all current items as INTIAL LOAD publication type.
 - iii. Supplier should publish all new items as NEW publication type.
5. Manage Catalogue Item Confirmation (CIC) Responses from Retail Insights
 - o CIC with state of "SYNCHRONIZE" means that Retail Insights has integrated your data with their backend systems.
