

## GDSN User Manual

### Initiating the GLN Subscription for GDSN Data Synchronization:

1. Log into [www.abcsetup.com](http://www.abcsetup.com).
2. Click on  and click the option '1WorldSync Subscriptions'.
3. Enter your Supplier GLN and click .

Please allow up to 24 hours for the registration of your GLN subscription before publishing your item data.

4. You will need to coordinate with your internal GDSN data synchronization resource(s) to publish your item data to ABCSetUp via GDSN.
  - i. Please direct your data team to review the Retail Insights (ABCSetUp) Implementation Guide at <https://www.1worldsync.com/community/customers/abc/> for step-by-step instructions on how to publish items to ABCSetUp.
  - ii. Your data team can select to publish your full item catalogue to ABCSetUp **OR**
  - iii. Your team can select to publish only certain items. If your data team chooses this option, only those select items will be shared with ABCSetup. If there is an item that you would like to setup with ABC and it is missing from your Item Catalogue on ABCSetup, you will need to contact your data team to get the item published.
  - iv. If you need assistance with this step please contact 1WorldSync at [businessdevelopment@1worldsync.com](mailto:businessdevelopment@1worldsync.com) or 866.280.4013.

Once your item information has been published to ABCSetUp, you may click  to view the items now available for setup.

**How to setup a GDSN item:**

1. Click on **ITEMS/DISPLAYS & EVENTS**
2. Click on Add Open Stock Item.

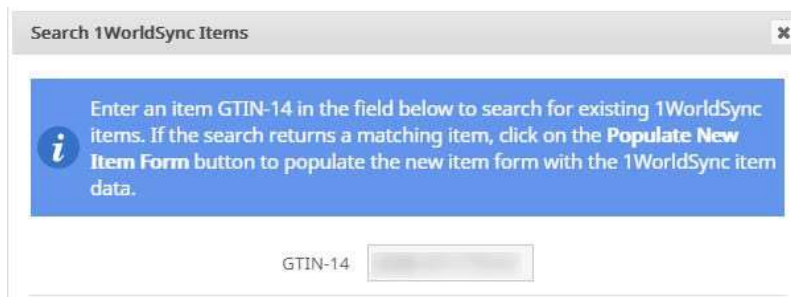

*New Items: Supplier In Process*

3. Click on 1WorldSync.

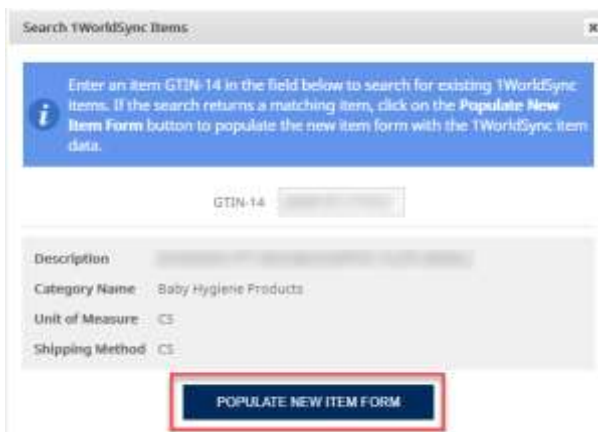

4. Enter your item's GTIN number.

- a. You will be prompted to confirm new item setup.

5. Click **POPULATE NEW ITEM FORM** to continue with the new item setup, or click the 'x' at the top right of your screen to cancel.

*If your item has been published to ABCSetUp and you forget to click the 1WorldSync button, the portal will register that your item is available to populate once you enter the GTIN number into the Product Detail field.*

 \* Fill in at least one of EAN, GTIN, HIBCC, HRI, NDC or UPC fields, but please include all available identifier.

EACHES EAN (1-6-6)	<input type="text"/>	*
