Production: 0860002034607

1.3 Data Sync Environment

Data Pool: 1WorldSync

Data Synchronization Implementation Guide

2 STEPS TO START SYNCHRONIZING YOUR DATA WITH BOMGAARS

Implementation Steps

1. Review the attribute requirements for GDSN in Section 3 of this document.
2. Complete the Bomgaars Trading Partner Form found on the Bomgaars Landing page at <https://www.1worldsync.com/bomgaars-trading-partner-form/>. This is the first step in the data sync process.
3. Have your complete and accurate item data loaded into your GDSN certified data pool and ensure it is ready for publication in Production.
4. Bomgaars will create a subscription based on the Information Provider GLN you provide in the Trading Partner Form.
5. Bomgaars will send an email to the supplier's primary data synchronization contact when they are ready for the first publications.
6. Publish Initial Load or New items to Bomgaars GLN **0860002034607**
7. Bomgaars will return RECEIVED CIC's to the Supplier acknowledging the receipt of the published items.
 - a. Bomgaars will then send subsequent CIC's of REVIEW, REJECT, or SYNCHRONIZED once they have reviewed the item data. If the supplier receives a REVIEW, they should resolve the discrepant data and send the modified item to Bomgaars.

Data Synchronization Implementation Guide

3 ATTRIBUTE REQUIREMENTS

Please refer to the attribute requirement document located here:

<https://www.1worldsync.com/community/customers/Bomgaars/>.

Bomgaars encourages their data sources to provide as many product images as possible and also to provide as many of the image-related attributes as possible. They are especially looking for the related attributes listed in the document.
