

GDSN Product Data Syndication with ABCSetUp

AmerisourceBergen is asking your GDSN product data to be published to their item set up GLN 0860044000608. Once shared via 1WorldSync, your GDSN product data will be ingested in ABCSetUp (ABC's item management portal, powered by Retail Insights) for top off to complete the item setup process.

Availability of your GDSN product data is imperative for expedited item set up and placement in ABC product catalog. **We are asking you to take necessary steps to publish your full catalog to GLN 0860044000608 by March 31, 2020** to ensure they are available in ABCSetUp portal when ready to be set up. This is very important to ABC and our goal to set up items in an expedited manner and therefore must be complied.

The ABC specific data top-off will typically be performed by the sales lead in your organization. They either already or will have access to ABCSetUp. Availability of GDSN product data will enable the ABCSetUp users to just complete the data in less time and set up items faster. Please reach out to your sales team to collaborate.

1WorldSync is our GDSN partner and will be reaching out to you to follow up on your progress towards publishing your product data to us and offer assistance as needed.

If you have any questions, reach out to:

- 1WorldSync at businessdevelopment@1worldsync.com
- Retail Insights at support@ABCSetup.com

Sincerely,

A handwritten signature in black ink that reads "Doug Truman".

Doug Truman
