

# Early 2020 GLN update message

Friday, March 20, 2020 08:06

Hello! We'd like to announce the addition of a new GLN for UNFI Conventional (legacy SUPERVALU), as well as a new publication requirement for an existing GLN.

## 1) New GLN added for Carlisle, PA (0041130029912)

Below is the information related to our Carlisle, PA GLN. Any existing items carried here will need to be published to this GLN as INITIAL LOAD. To see if any of your items are carried at this location, please reply to this email requesting a "UCS Item Sync Report".

| Location     | DC Number | GLN           | Ship To Address                   | Bill To Address                         |
|--------------|-----------|---------------|-----------------------------------|---|
| Carlisle, PA | 91        | 0041130029912 | 192 Kost Road, Carlisle, PA 17015 | PO Box 11820, College Station, TX 77842 |

## 2) Any item published to UNFI - whether Natural or Conventional - MUST be published to our Minneapolis/Hopkins GLN (0041130079153).

The combined future platform for UNFI (both our Natural and Conventional businesses) is UCS - our United Core System - which you're publishing to today. In particular, publishing to our Minneapolis/Hopkins GLN (0041130079153) is critical for all items in both our Natural and Conventional businesses. In the weeks and months ahead, we'll continue to reach out to selected suppliers about this - providing a list of items to publish to this GLN, and the publication type to use (NEW or INITIAL LOAD).

Thank you for your continued partnership with UNFI, as we work together to supply our customers and their communities!
